	<b>Session 2.2 – Genotype Storage (an IT Perspective)</b>	Mediterraneo
	Leaders – Jan-Eric Litton and Tony Brookes	
15:15 - 16:45	<b>Plenary session 2 – Future Vision for Population Genomics and Biobanking</b>	Mediterraneo + Foyer
	<i>joint presentation from PHOEBE and P3G</i>	
	Moderators – Jennifer Harris and Bartha Knoppers	
	Speakers – John Ioannidis and Kurt Zatloukal	
	Background: Considerable progress has been made on critical points with respect to biobanking and international collaborations for population and disease-based studies. This progress involved identifying specific challenges and addressing these key issues through the development of tools, networks, and harmonization protocols. Today however, we are facing new challenges.	
	During this session we aim at identifying the next set of emerging challenges that will need to be addressed in order to push our agenda forward. Starting with the 'lessons learned', we hope to have a clear view of the next issues facing us, and the required steps for addressing them. What is needed in order to maximize the use of the resources we have built? How have scientific developments and changes in the field shaped the work that organizations like PHOEBE and P3G are doing for the research community?	
17:00 - 18:30	<b>Poster Session</b>	Mediterraneo + Foyer
20:00 - 22:00	<b>Members' Dinner</b>	Voramara Restaurant
