

Sunday – June 4, 2006

2:30 pm	Satellite Meeting Stichting Porticus Scholarship Programme (Grantees Meeting) Opening Reception and Keynote Address sponsored by Genome Canada	<i>Printemps</i>
7:00 pm	Registration and Opening Reception	<i>Foyer and Atrium</i>
8:00 pm	Welcome: Bartha Maria Knoppers (Canada)	<i>Pierre-de-Coubertin</i>
8:15 pm	Keynote Address: Francis S. Collins (USA) <i>Genomic Medicine: Opportunities and Responsibilities</i>	<i>Pierre-de-Coubertin</i>

Monday – June 5, 2006 Newborn Screening Revisited

7:30 am	Registration / Breakfast	<i>Foyer and Atrium</i>
---------	--------------------------	-------------------------

I - Expansion of Screening?

8:30 am	Chair: Gerard Loeber (The Netherlands)	<i>Saisons A&B</i>
8:40 am	Bridget Wilcken (Australia) <i>Expansion of Newborn Screening: Current Achievements and New Prospects</i>	
9:00 am	Nikki Kerruish (New Zealand) <i>Newborn Screening for Genetic Susceptibility: What's the Harm?</i>	
9:20 am	Anne Comeau (USA) <i>Newborn Screening: The Massachusetts Model(s) for Surveillance Research</i>	
9:40 am	Discussion	
10:10 am	Nutrition Break	<i>Atrium</i>

II - Newborn Screening: Carrier Status?

10:40 am	Chair: Wylie Burke (USA)	<i>Saisons A&B</i>
10:50 am	Helena Kääriäinen (Finland) <i>Carriers Detected by Neonatal Screening: A Clinical Geneticist's View</i>	
11:10 am	Jean-Louis Dhondt (France) <i>Lessons from Sickle Cell and Cystic Fibrosis in France</i>	
11:30 am	Lainie F. Ross (USA) <i>The Meaning of Carrier Determination in Newborn Screening Programs: Lessons from Sickle Cell and Cystic Fibrosis</i>	
11:50 am	Discussion	
12:15 pm	Buffet Lunch and Poster Viewing	<i>Atrium and Pierre-de-Coubertin</i>

III - Newborn Screening: Storage and Access for Research?

1:30 pm	Chair: Ellen Clayton (USA)	Saisons A&B
1:40 pm	Jeffrey R. Botkin (USA) <i>Ethical and Social Considerations in Research with Stored Bloodspots</i>	
2:00 pm	Bent Norgraard-Pedersen (Denmark) <i>The Danish Newborn Screening Biobank in Routine and Research</i>	
2:20 pm	Denise Avard (Canada) <i>Research and Surveillance in Canada</i>	
2:40 pm	Discussion	
3:00 pm	Nutrition Break	Atrium

IV - Selected Oral Poster Presentations

3:15 pm	Chair: Denise Avard (Canada)	Saisons A&B
3:20 pm	John Adams (Canada) <i>Status Report on the Practice of Newborn Screening in Canada</i>	
3:35 pm	Fiona Ulph (UK) <i>Information Needs of Children Identified as Carriers through Newborn Screening for Cystic Fibrosis: Views of Genetic Counsellors in the United Kingdom</i>	
3:50 pm	Fiona A. Miller (Canada) <i>Newborn Screening: The Problem of Nosology</i>	
4:05 pm	Ingeborg Blancquaert (Canada) <i>Criteria and Decision-making regarding Population-based Genetic Screening Programs – A Systematic and Participative Approach</i>	
4:30 pm	P3G Observatory Networking Reception	Atrium

Tuesday – June 6, 2006

Public Health Genomics

7:30 am	Registration / Breakfast	Foyer and Atrium
---------	--------------------------	-------------------------

I - Towards Public Health Genomics?

8:30 am	Chair: Melissa Austin (USA)	Saisons A&B
8:40 am	Ron Zimmern (UK) <i>What Is it and Why Is it Important?</i>	
9:00 am	Angela Brand (Germany) <i>Challenges for Public Health Genomics</i>	
9:20 am	Anne Cambon-Thomsen (France) <i>Normal Human Genomic Variation and Public Health</i>	
9:40 am	Discussion	

10:10 am Nutrition Break **Atrium**

II - State, Powers and Privacy?

10:00 am Chair: Timothy Caulfield (Canada) **Saisons A&B**
10:50 am Mark Rothstein (USA)
Privacy Issues in Public Health Genomics
11:10 am Darren Shickle (UK)
Balancing Private and Public Interests in Policy
11:30 am Ruth Chadwick (UK)
State Powers and State Responsibilities?
11:50 am Discussion

12:15 pm Buffet Lunch and Poster Viewing **Atrium and
Pierre-de-Coubertin**

III – Implementation in Public Health?

1:30 pm Chair: Ana Sánchez Urrutia (Spain) **Saisons A&B**
1:40 pm Muin Khoury (USA)
Genomics and Public Health in the United States
2:00 pm Daniel Gaudet (Canada)
*Mainstreaming Public Health Genomics: The Ecogene-21 Community
Perspective*
2:20 pm Jane Halliday (Australia)
Implementing Population Screening Programs
2:40 pm Discussion

3:00 pm Nutrition Break **Atrium**

IV – Selected Oral Poster Presentations

3:15 pm Chair: Béatrice Godard (Canada) **Saisons A&B**
3:20 pm Amalia M. Issa (USA)
*Integrating Genomic Diagnostics into Health Care: Stakeholder Perspectives
and Policy Implications*
3:35 pm Cecile Jansens (The Netherlands)
*“Type 2 Diabetes Gene Discovered” - The Schism between Genetic
Associations and Population Health Impact*
3:50 pm Saskia Sanderson (UK)
*Public Health Genomics and Genetic Test Evaluation: The Challenge of
Conducting Empirical Research on Clinical Utility and a Framework that
Rises to the Challenge*
4:05 pm Nathalie Égalité (Canada)
*Pharmacogenomics Research Involving Ethnicity: Implications for Public
Health*

4:30 pm GRAPH-Int Networking Reception

Atrium

Wednesday – June 7, 2006

Current Approaches and Future Perspectives

7:30 am Registration / Breakfast

Foyer and Atrium

I - The Role of International Stakeholders

8:15 am Chair: Andrea Boggio (UK)

Saisons A&B

8:25 am Stuart Hogarth (UK)

From Genomic Research to Public Health Practice: International Policy Implications

8:45 am Mylène Deschênes (P3G)

P3G Consortium: Facilitating Harmonization and Serving Public Health

9:05 am Mohamed Karmali (GRAPH-Int)

Genome-Based Research and Population Health International Network

9:25 am Alastair Kent (EGAN)

Patients as Partners

9:45 am Discussion

10:05 am Nutrition Break

Atrium

II - The Role of Citizens

10:20 am Chair: Michèle S. Jean (Canada)

Saisons A&B

10:30 am Hubert Doucet (Canada)

Genomics and Modes of Democratic Dialogue: An Analysis of Two Projects

10:50 am Marie-Hélène Mouneyrat (France)

Meeting of Minds: A European Citizen's Deliberation on Emerging Technology

11:10 am Caroline Hurren (UK)

Developments in Genomics: Engaging Young People

11:30 am Discussion

11:45 am **Closing Address:** Bartha Maria Knoppers (Canada)

Genomics and Public Health: Responsibilities & Opportunities

1:15 pm **Satellite Workshop: Citizen Engagement**

Printemps

Organized by GREB (Groupe de recherche en bioéthique, Université de Montréal)
